

LIST OF BOOKS AT THE CENTRE

 <p><i>A regional tool that draws on concrete examples, suggestions and knowledge shared by numerous individuals on the experiences of legal reforms processes that have been conducted by UN Women and partners, for use and adaptation at Country level.</i></p>	 <p><i>A publication designed to showcase the leadership contribution of a cross-section of women in politics in Nigeria. It captures their stories, experiences and achievements with the intent of inspiring women to participate and succeed in politics.</i></p>	 <p><i>A document that provides tactical road map and required skill sets for would-be and experienced female politicians, with the aim of improving women's political participation and election skills.</i></p>
 <p><i>The guide that offers a comprehensive review of current knowledge on Violence Against Women in Elections (VAWE) and also showcases the innovative prevention and response measures being tested. Intended for leadership of political parties, management bodies, CSOs, women groups and gender equality activists.</i></p>	 <p><i>This document showcases innovative and effective programming interventions and good practice examples to increase women's electoral participation and ensure gender mainstreaming.</i></p>	 <p><i>A powerful political tool for use in advocacy and mobilization. It captures issues of critical concerns to women in Nigeria across boundaries and generations.</i></p>

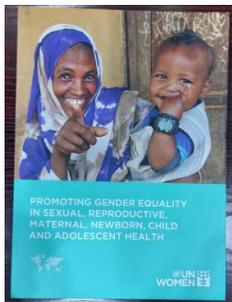

This document provides guidance on how the legislature and lawmakers at all levels can help implement the women, peace and security agenda and the National Action Plan (NAP). Also offering good practice from other parliaments that could assist the Nigerian legislators.

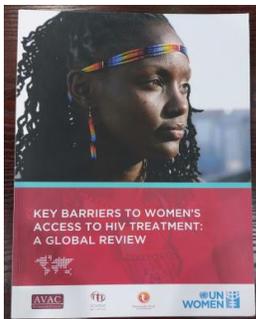

This is a collation of available data (as at 2016) on representation of women and men in elective and appointive positions in Nigeria, intended to inform targeted advocates on the pursuit of affirmative action aimed at increasing the number of women in decision making positions.

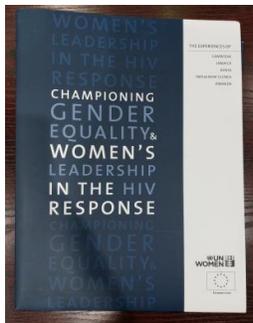

A collation of data on the involvement and participation of Nigerian women in different sectors of the economy (with Osun and Gombe as case studies), intended for use to evaluate Nigeria's progress toward implementation of SDGs from 2016 to 2030.

A practical guidance tool on understanding the influence of gender on Sexual, Reproductive, Maternal, Newborn, Child and Adolescent Health (SRMNCAH), intended to strengthen gender equality to improve health outcomes for women, children and adolescents.

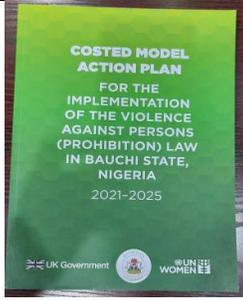

This is a review that improves our understanding of the experiences, realities, needs, visions and priorities of women living with HIV in relation to treatment access.

The kit features lessons and results of 5 countries. It demonstrates the important progress that can be made when investments are targeted to implement commitments on gender equality in the HIV response as well as empower the leadership and participation of women and girls, especially those living with HIV.

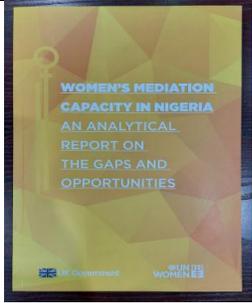

The CMAP is a document developed to help Bauchi State Government translate its commitment to gender equity and social inclusion into sectoral plans and programmes and track the effective use of resources.

Drawing on the best available data around the world, this report proposes a comprehensive agenda for key policy actors to make human rights a reality for all women and girls no matter what kind of family they live in.

A report that provides a database of women mediators in Nigeria and also a situational analysis of the opportunities for women mediators to engage in conflict resolution.
